PRESIDENT'S MESSAGE

76

It is with a very heavy heart that I share the following information with you. We recently became aware that 76 classified employees will be laid off from the Jefferson County Public Schools. This means that the livelihoods of these 76 individuals who very much depended upon their jobs as assistants, clerical workers, lunchroom workers, etc. will cease to exist. It means that 76 people will not have health insurance and will be forced to forgo medical care. It means that 76 men and women will not be able to feed their families. It means that 76 union brothers and sisters will be forced to live off of government subsidies while they try to find employment in this still unsteady economy. It means that bills will go unpaid. It means that power will be shut off. It means that a road of tough decisions lies ahead.

The reasons why these 76 individuals will have to make these tough decisions are hard to understand, because in the same budget that our Superintendent is laying off these educational support professionals who directly touch the lives of kids each day, he will be paying for several new administrative positions that have been created at central office, many of them with salaries in the range of \$100,000 and beyond. We're not talking about principals or assistant principals who are out in the buildings near the students. We're talking about top level administrators who will be housed and utilized at district headquarters. The administration can offer rationale for why the central office administrators are critical to the success of our district while our classroom assistants and other support professionals are not. However, I doubt these arguments would carry much weight with most classroom teachers who know how valuable our support professionals are to the success of the students they teach.

The reality is that 76 classified personnel will be losing their jobs at the end of this school year, and considering the circumstances, we have to ask ourselves, "How can it possibly be that we are hiring more highly-paid administrators at the central office at the same time that our teachers' assistants are being fired? How can this be in the best interests of the kids we serve?"

Please keep these 76 people in your thoughts in the coming days, weeks, and months. I'm sure it will mean a great deal to them to know there are many of us in this district who care about and value them, who appreciate the service they have provided to our students and who regret their loss.

Itinerants

For purposes of planning, inventory, and storage of equipment/supplies, itinerant teachers NOT returning to a school should not be schedule for classes the last instructional day at that school. Itinerants who will be returning to their school for the 2009/10 school year should be free of classes at least half of the last instructional day at that school. This obviously can affect teachers’ planning time, so now is the time to prepare! If you have questions, please contact JCTA.

Personal Days

As we head into the final days of the school year, please remember that the contract DOES NOT allow for personal days to be used during the last five (5) days of the school term. JCTA interprets that to mean the last five (5) student days. Be advised that of the two (2) remaining work days for teachers that go beyond the school term, one (1) of those days is a professional development day (Gold Day).

Call First

Spring is a very busy time around the JCTA office. If you need to meet with your UniServ Director, please be sure to call the office to schedule an appointment or to make sure that your UniServ Director will be available if you plan to drop by. Call 454-3400.
